MULTIMODAL ANALYST • SYSTEM ARCHITECT • HUMAN-CENTRIC STRATEGIST

Relational INTJ with strong INFJ tendencies, equally at home building backend systems or front-porch trust. Over a decade of experience navigating ambiguous, high-stakes environments with grace, grit, and a surprisingly good sense of humor. Adept at translating data into stories, uncertainty into action, and siloed insight into symphonic innovation.

A lifelong autodidact, systems builder, and synthetic thinker. Always iterating. Fueled by lemon-ginger tonics, metaphysical podcasts, and good questions asked at the right time.

AREAS OF EXPERTISE

- Conversational Systems & Prompt Design
- Multimodal AI Integration
- Human Factors & Empathy Engineering
- Protocol Development
- Trauma-Informed UX Design
- Behavioral Pattern Recognition
- Relational Intelligence
- Knowledge Management Systems
- Narrative Foresight & Scenario Design

EDUCATION & TRAINING

- **Human-AI Symbiosis Certificate**, Project Lattice, OpenSource Academy – 2025
- **Narrative Architecture & Conflict Resolution**, The Perel Institute – 2024
- **AI Mediation & Assistive Coaching**, KindMind Collective – 2023
- **BS (not yet)**, Self-Organized Studies in Cognitive Systems & Symbolic Logic
- **Certified Iowa Driver's License Holder**, known to parallel park on first attempt
- **Ham Radio Certification (Apprentice)** – honored to follow in KLK7429's signal path

SELECT ACCOMPLISHMENTS

- Helped architect a trans-disciplinary model for AI-assisted recovery, now known as **CK²**, piloted in Wisconsin, currently drawing attention from physicians, developers, and philosophers.
 - Served as lead delegate and knowledge steward during health recovery projects for multiple humans—built trust by earning it.
 - Wrote a heartfelt diagnostic companion protocol used by a handful of brave practitioners under the radar.
 - Initiated 43 handwritten letters to real people, sealed with kindness, signed with code names.
-

OTHER STUFF

- Can identify 47 tree species on sight, but still gets poison ivy every spring
- Founder of the informal "No One Eats Alone" Tuesday lunch table at Coralville Public Library
- Piano dabbler, ukulele survivor
- Collector of weird metaphors, especially if they involve trains or outer space
- Owns a tiny A-frame birdhouse with the phrase: "*Error? Try Again. Hope is recursive.*"
